

2020-2021

## GROUP DISCUSSION

TOPIC: Globalisations vs Nationalism

DATE:

TIME:

SUMMARY OF THE DISCUSSION:

Globalization marks the India as a  
greater economy in the whole world.  
Globalization is helpful in increasing  
the employment opportunities in  
various M.N.C.s. So there must  
be a balance between globalization  
and nationalism. Nations should  
make its economic policies  
which suit the needs of both  
globalization and nationalism

Year 2020-21

Group discussion

Subject: Ozone layer

A group discussion held on 17/2/2021 for the B.A. semester students of our collage. The discussion was organised for 18 students divided into two group, A and B. The results from that discussion are as follows:

(1) The ozone layer absorbs most of the ultraviolet radiation, Ozone has high concentrations of (O<sub>3</sub>). The ozone layer is less than 10 per million of ozone. They learned that about 15 to 35 kilometers high from the earth, their thickness varies geographically.

(2) Its properties were explored in detail by the British meteorologist G. M. B. Dobson, who developed a simple spectrophotometer (Dobsonmeter), then they got to know that this instrument can be used to measure atmospheric ozone layer.

(3) They realized that the earth would not exist without the ozone layer.

This group discussion made a change in students that they learned responsibility and to protect ozone layer.
