CLASS SEMINAR REPORT

A class Seminar was conducted on the 11th January 2020 for the students of Basic English (2nd Semester). The topic of the seminar was "Our Civilization".

Many students voluntarily came forward to read the prose -Our Civilization as it was a part of their present syllabus. Some students also tried to explain points about what was the gist of the prose. During the seminar hour students made points and the same were read by them in the class room.

After the seminar the teacher was able to draw a conclusion and thus summarize the following points.

Summary of the Seminar:

- Most of the people who appear most frequently and most gloriously in history books are great conquerors, generals, and soldiers, whereas the people who really helped civilization forward are often never mentioned at all.
- Civilized people should be able to find some other way of settling their disputes than by seeing who can kill the most people on the other side.
- Science has bestowed upon us godlike abilities, but we treat them as if they were toys... Machines were designed to serve man, but he has grown so reliant on them that they are on their way to becoming his lords.
- One thing is reasonably definite, and that is that there cannot be any good and lasting civilisation in the world until whatever wealth there is, is more equally divided than it is at present.
