Women's Cell Report on Special Lecture

Date: 27/09/2017

The Women Cell with the collaboration of Youth Red Cross conducted a special lecture on the topic

"Awareness of Women Health" on the 27th September 2017.

In the absence of the Secretary of the women's cell, one of the members of the women's cell Smt S.K. Jadhav welcomed the guest of the function Dr. Satish, Govt Hospital Ganeshpet-Hubli and also introduced him to all the girl students of our college.

Then the doctor addressed the students about women's health and hygiene. Women have their own set of health challenges that require specific attention. Healthy living may take a back seat due to the chaos of a woman's daily life. It is critical that every woman has access to information regarding the whole range of women's health issues, not just those affecting her reproductive system, but also those affecting her entire body. Their awareness can encourage healthy lifestyle choices, which are the best way to avoid disease, live longer, and live better.

Some prevalent health disorders that impact millions of women each year can be below.

- Problems with menstruation

Period problems, such as heavy, scarce, missed, or irregular periods, are fairly frequent among women. Period cramps are still a common ailment among women.

- Thyroid disease

It affects twice as many women as it does males, and it is particularly frequent among women of childbearing age (18-35 years)

- Anaemia

Anaemia is caused by a shortage of red blood cells or red blood cells that are malfunctioning in the body. As a result, oxygen supply to the body's organs is restricted. Fatigue, skin pallor, shortness of breath, light-headedness, dizziness, or a racing heart are all possible symptoms.

The course of treatment is determined by the underlying diagnosis. Iron supplements can be used to treat anaemia. Low vitamin levels can be treated with vitamin B tablets. For blood loss, blood transfusions can be used. If the body's blood production is low, medication to promote blood formation may be employed.

The words of the doctor were highly informative and girls were now aware of the necessity to take care of their health. Then the function was presided by Shri D.S. Hegde in the absence of the Principal.

The vote of thanks was proposed by Shri V.B. Veeragond.

Date: 08/03/2016

8th March is internationally celebrated as the "International Women's Day". It is an important occasion for all of us to pause for a moment to reflect on ourselves, to appreciate how much has been done and what more needs to be done in the field of gender equality. Moreover, it is the day to acknowledge all the men and women in the world for making this world a better place for everyone to live in.

On the day, we had organized a debate "Equality for women is progress for all". The purpose of organizing a debate on such occasion was not just to observe the day but also to create awareness amongst the students and also with the target of reaching the parents and people in the community at large through the students.
